DD/R - Computer Services

MFR S

28 Feb 1962

STAT

STAT

[] made review of Agency use of computers and the Automatic Data Processing Staff's activities. Current users [] DD/I (NPIC & OCR, translation); DD/S (handling of personnel, security, training, med, comptroller and logistics records by machine underway; Commo has []

STAT

STAT

[] concluded the Agency's first problem is one of learning everyday techniques already developed by the computer industry. DD/R would have only minor interest although if a sophisticated special purpose computer were required for which the Agency should fund research and procurement, DD/R should be responsible.
